DETAILED ACTION

Response to Amendment

This action is in response to Applicant's amendment filed December 29, 2004.

Claims 16-25 have been newly added. Claim 2 has been cancelled. Claims 1, 3-5, 7, 9
13 and 14 have been amended. Claims 16-21 have been newly added. Claims 1 and 3-21 are pending in the present application.

Election/Restrictions

- 1. Restriction to one of the following invention is required under 35 U.S.C 121:
 - A. Claims 1, 3-6 and 11-20 are drawn to an advertisement distribution system, classified in class 705, subclass 14.
 - B. Claims 7-10 and 21 are drawn to a store terminal that receives advertisement contents and issuing a receipt, classified in class 705, subclass 16.
- 2. Inventions A and B are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention A has separate utility such as an advertisement distribution system, classified in a different Class/Subclass.

 Invention B has separate utility such as a store terminal that receives advertisement contents and issuing a receipt, classified in a different Class/Subclass. See MPEP 806.05(d).

3. The inventions are distinct, each from the other because of the following reasons:

(a) these inventions have acquired a separate status in the art as shown by their difference classifications.

(b) the search required for each Group is different and not co-extensive for

examination purposes.

For example, the searches for the two inventions would not be the co-extensive because these Groups would require different searches on PTO's classification class and

subclass as following:

The Group A search (1, 3-6 and 11-20) would require use of search class 705,

subclass 14 (not required for the invention B).

The Group B search (7-10 and 21) would require use of search class 705.

subclass 16 (not required for the invention A).

For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement may be

traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected

invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17 (h).
